

The Kansas Chief.

SOL. MILLER, EDITOR.

WHITE CLOUD, KANSAS:
Thursday, : : October 17, 1867.

IT IS WORKING.—What we have said heretofore regarding the German movement, is being demonstrated continually.

A Kansas German paper says that the Democratic success in California was secured by German votes, and boasts of it as the first German victory, in opposition to temperance and Sunday laws, and threatens the Republicans of Kansas with the same fate as their friends in California.

Reports from Iowa say that the Germans generally voted the Democratic ticket, while the Fenians voted the Republican ticket.

We recently published a resolution adopted by the German Turners of Dayton, Ohio. That city has been formerly Republican, by several hundred majority. At the recent election, it gave about as many hundred Democratic majority. Who doubts that it was the work of the Infidels?

So it will be in Kansas, whenever the power is secured to accomplish it. The only security for the friends of law, order and morality, is to confer the right of franchise upon women at once.

NOT SO BAD AFTER ALL.—Feller returns elect the Republican State ticket in Ohio, by several thousand majority, but the Democrats have small majorities in both branches of the Legislature, which secures them a United States Senator in place of Wade.

In Pennsylvania, the Democratic Judge is elected by a small majority, but the Republicans have handsome majorities in both branches of the Legislature, which secures them a United States Senator in place of Buckalew.

Thus all the Northern States have Republican Governors, who have power to veto all mischievous measures by Legislatures having meagre Democratic majorities. Better than all, they have command of the State forces, and can send their hosts down like an avalanche, if Andrew Johnson attempts rebellion or revolution to thwart the Constitution and the laws. And they have the will and the nerve to do it!

ELECTION TICKETS.—From the number of candidates entering the field, and the mixed up character of the contest for County officers, it seems to us that each candidate will not only have to procure enough tickets of his own to supply the entire County, but will have to get as many different kinds as there are candidates in the field, in order to accommodate the friends of the different candidates. This will make pushing work for the printer. We trust that those who intend having their tickets printed at this office, will send in their orders as early as possible, with the number and the various forms plainly designated. A dozen different candidates flocking to a printing office on the eve of the election, each with a dozen different forms of tickets to print, without a moment's delay, will crowd printers beyond their ability to perform, and will belate themselves in getting their tickets properly distributed.

HOLLOWAY'S PILLS AND OINTMENT.—Health and Happiness are the twin-sisters which render existence pleasant and agreeable, for the enjoyment of life depends, in a great measure, on the state of the health. None need despair who suffer from dyspepsia, pulmonary affections, nervous disorders, ulcers, scrofula, piles, or fistulas, while these famous medicines offer not only an antidote but a radical cure. They have had the most marvellous success in the worst types of diseases which afflict the human race. Sold at all Druggists.

FRANK NURSERY.—Mr. Snyder's new advertisement will be found in this week's Chief. He is pushing his business with great energy; has a good stock of everything in the Nursery line; his prices are reasonable; and he is making a liberal and judicious use of printer's ink, in letting the public know what he proposes to do. He is a hard-working, fair-dealing man, thoroughly interested in his calling, and all will find it to their advantage to deal with him.

HOOK AND LADDER.—We learn that the City Council intend providing for the organization of a Hook and Ladder Company. It is a wise move, and should be carried into effect immediately. If a fire should break out in some of our cotton-wood rows, nothing but hooks and ladders would be of any service, in the absence of a fire engine.

OPPOSITION.—It appears that the race for Representative in this District is to be hotly contested. H. N. Seaver this week announces himself as a candidate. He has had legislative experience, is a man of talent, and an indefatigable worker. The contest will be sharp and interesting.

SIDNEY CLARKE.—Let everybody go to hear Sidney Clarke, on Friday evening, the 18th inst. Mr. Clarke writes us that he will be promptly on hand to fill his appointment. Give him a full house.

"A Remarkable Case" is recorded in Barnett's Floral Hand Book, pages 20 and 21. Get the Book at Drug Stores.

"LIBERTY."—Since the Germans have declared war upon the laws that protect the morals of society, upon the claim that such laws restrict their liberty and enjoyment, there are many other classes now restricted by law, which have fully as much right to the enjoyment of their liberty, and their demand for the removal of all restrictions would be as reasonable as that of the Germans. Prize-fighting is a favorite amusement with thousands. Let its friends organize, and demand the repeal of all laws prohibiting it. The gamblers can muster an immense army in the United States. Their liberty demands that all laws against gambling be repealed. Duelling is held in high repute in some parts of the country. There are stringent laws against it, which interfere with the liberty of duellists. Let them rally for their rights. Tens of thousands of men find their highest enjoyment in houses of prostitution; but there are laws enforcing certain restrictions upon such houses, by which the perfect liberty of their patrons is abridged. Now is the time to strike for their rights. The laws of the United States make treason a crime. How many thousands of men, North and South, proclaimed the rebellion a war for liberty, and denounced as tyrants the men who undertook to punish traitors? They did organize to secure their "liberty," as the Germans are doing, and were beautifully whipped; but now is their time to make another effort, for the Germans declare that they will unite with any party that will break down the Sunday and temperance laws.

Then, let there be one grand rally of German Infidels, Prize-fighters, Duellists, Gamblers, Prostitutes, and Traitors, in defence of their rights; and let it be called the Grand Army of "Liberty!"

ABUSING KALLOCH.—The entire anti-woman suffrage press of the State has taken up the cry, that the woman-suffrage papers were loud in their praises of Kalloch, until he came out against their measure, when they immediately commenced abusing him. It is not true that they have abused him simply because he opposes female suffrage, but because of the way in which he does it. Judge Kingman, Auditor Swallow, Secretary Barker, Treasurer Anderson, Judge Sears, and many other prominent men oppose it, who have not been abused, (as it is called,) because they have done it in a decent manner. But Kalloch cannot tolerate opposition; he thinks that when he speaks, everybody must obey—that he can "push" every one to the wall, as he would express it. As soon as he decided which side of the fence to take, he went it rough-shod, abusing and defaming the women who desire to vote, calling them coarse, hard-fisted brawlers, and all the epithets that a long acquaintance with bawdy-house literature gave him command of. It is because of his utter brutality and beastliness that he has been denounced—and only that.

A MISTAKE.—We occasionally hear that it is rumored here and there that we have been instrumental in bringing out this and that candidate. We will say, once for all, that we have not been the means of bringing out any candidate—not even the one from our own town—and do not intend to go into that business. All candidates who send in their announcements, with the usual fee, will give a place in our columns; and we will give each one as favorable a notice as we can, either from personal knowledge, or upon the assurance of men we know. We have our choice of candidates, and mean to vote for them; but we do not expect to make a fight in our paper against any man. There are several candidates whose election we think especially important to the interest of the County. At the proper time we may say so; but beyond that, we do not desire to go into any contest.

C. C. C.—The name of C. C. Camp, Esq., of Troy, is announced in this week's issue, as a candidate for County Commissioner. We know Mr. Camp to be a thorough-going business man, who understands the interests of the County; and if elected to the Board, every matter that comes before it will be strictly scrutinized and investigated, and justice impartially done.

"STILL THEY COME."—John Landis, of Wayne Township, is announced as a candidate for Sheriff. We have no acquaintance with him, but believe he is an old citizen of the County, and served honorably during the war. His friends will doubtless make a vigorous fight in his behalf.

Under the head of "Deaths," the St. Joseph Herald publishes the following:

"In this city, by the Rev. B. B. Parsons, D. D., on the 23d ult., Mr. John Weaver and Miss Josephine C. Robbins, both of Andrew County, Mo."

We hope it didn't hurt them much.

The following is the nearest way of announcing an important event, that we have heard of lately. It passed over the wires, to distant friends:

"Our little boy surprised us, last night. Both doing well."

FACTS.—The Chemical Saleratus is the Best Saleratus. Chemical Saleratus is better than Soda. Chemical Saleratus has 16 ounces in a paper, others have 14 to 15 ounces.

Whitcomb's Remedy for Asthma is a sure cure.

"VENOM."—We believe this is what the Atchison Champion applies to a recent article in our paper, relative to the G. A. R.; and he also connects it with Copperhead. We have endeavored to regulate our venom by that of the editor of the Champion; and if it appears so outrageously venomous to him, he may judge how his emanations appear to other folks. As to Copperheadism, we shall not even make a reply to such an insinuation. Although we never begged a commission in the army, went to fight at a fat salary, and wrote ourselves up a great military chieftain through the columns of our own paper, no person entertains a higher respect for true soldiers than we. Thousands of soldiers have united with the G. A. R. honestly, with the idea that its object was what it professed to be. But it has been turned into a political machine by the men who had the big pay-off offices in the army, to assist themselves to political offices. Our last State Convention, for instance, was a fair specimen. It was run by that institution, and some of the leading men who were thrust upon the ticket by means of its machinery, were so notoriously mean and corrupt that hundreds of soldiers scratched the ticket. We have information that very many of the members of the G. A. R. at the East voted the Copperhead ticket, this Fall, because they hated the niggers, the only true friends they had in the South, and the only persons to whom they could look for help in time of need; voted the Democratic ticket, and thereby endorsed the repudiation of debts contracted to pay, feed and clothe themselves in the field. In view of these facts, we do not want to hear anything about "venom" and "Copperheadism."

"JAKE."—The editor of the Emporia News thinks we want to provoke a newspaper quarrel with him, because we objected to some of his political conduct. We believe he sets up this claim every time we take issue with him on a public question. No, Jake, we want no quarrel with you; but do permit us occasionally to differ with you, or to joke with you. Our reason for opposing you wished to apply the party lash against the advocates of female suffrage, was this: you and your friends set the ball in motion, in organizing a party in opposition to female suffrage. Your meeting was a preliminary—rather the mother of the Lawrence meeting, which was guided by the same leading spirits as yours. The latter meeting asked the Republican party to co-operate with them in opposing female suffrage. That was attempting to apply the party lash—and we guess that you endorsed the Lawrence proceedings, although we don't receive more than half the numbers of your paper.

BEN. WADE.—If the result of the Ohio election had no worse effect than to beat Ben. Wade, we should regard it as a good thing. His headlong course and intemperate language had a vast deal to do in defeating his party, and he is really the only man who suffers by it. If a person believes in negro suffrage, let him produce his arguments boldly; but when any speaker, as Wade did in a speech at Marietta, during the campaign, will proclaim to a large audience, that the negroes are better qualified to vote than a majority of the foreigners, he is using up the party that he hangs to about as fast as there is any necessity for.

Dr. Shreve says that the terms used in our article, last week, relative to his surgical operations, will lead the medical fraternity to set him down as a regular butcher. Well, perhaps we didn't get the big words in correctly, but we guess that our meaning can be got at. We know nothing about anatomical terms, but thought we had to stick in something of the kind, and slapped down the first that came to our mind. But if the patients can survive it, we'll try to do so.

Miss Olympia Brown was recently refused the use of the Church at Highland, to deliver a lecture in favor of female suffrage. But it was opened to Mr. Kalloch, on Wednesday night, to speak against female suffrage. Is that impartial justice? Does the church thus declare itself against the women? Or was it solely a question of moral character?

Greeley, in explaining why, as a member of the Constitutional Convention of New York, he reported in favor of negro and against female suffrage, says that he did so because most of the negroes desire to vote and most of the women do not desire to vote.

Greeley is said to be as simple minded as a child. The above item makes it look a good deal that way.

Some one informs us, that he has observed, in this country, that when there is an extraordinarily productive year for fruit, the season is extraordinarily sickly—the diseases not being such as are produced by the use of fruit. It is certainly so this season. We took no notice of it during previous years.

We would suggest that speakers and newspapers may as well leave off quoting the Declaration of Independence, in their future appeals. It has lost its charm. It would do as much good to calmly sit down and talk to a hungry mule about the corn that Joseph's brethren brought from Egypt.

The favor of our correspondent, "Blank," is compelled to stand aside until next week, on account of the Registry lists.

For the Bath, Barnett's Cologne Water is unrivalled.

FORCED TO ADMIT IT.—The following is a special dispatch from Lawrence to the Leavenworth Times, a paper that puts in a word against female suffrage, whenever an opportunity offers:

LAWRENCE, Oct. 8.—Kalloch and Sears spoke last night at Fraser's Hall, for manhood and against woman suffrage. Half and half. It is doubtful how Douglas will go. Kalloch weakens manhood suffrage whenever and wherever he speaks; Sears only follows him.

Many doubt the sincerity of the two men; the majority question the integrity of both.

We have not the least doubt this is correct. As far as effect is concerned, the friends of female suffrage are willing that Kalloch should canvass the State against it. But we are sorry that Judge Sears is "bunting in couples" with such a reprobate. The people of Kansas had about forgotten the fact that he first made his appearance here as a bob to Jim Lane's kite tail, and as a travelling companion of the lecherous pimp, Dr. King. They will soon begin to think that he has a natural affinity for such company.

SOUND, WHAT THERE IS OF IT.—Long years ago, when we used to live up in Twin Township, Preble County, Ohio, we were ashamed to confess it. It was the only Democratic Township in the County, and was overwhelmingly so; and it had been that way ever since the days of John Quincy Adams, which was beyond our memory. But there are bright streaks up there yet—the Republicans are sound, what there are of them. At the late election, while the heavy Radical Townships showed a heavy cutting on the suffrage amendment, old Twin showed but ten difference, indicating that but ten Republicans in all that dark township refused to fight the whole issue through. We think, after all, that when men always fight in a hopeless minority, they have nothing to look forward to but principle, and are the most reliable in the hour of need.

A paper in Leavenworth daily treats its readers to interesting local items on the following subjects: Phalon's Night Blooming Cereus; Sonodot; Brown's Blackberry and Ginger Remedy for Diarrhoea; Saloon and Restaurant Puff; Hon. Mr. This, That, and T'other was in the city yesterday, and called on us; the Daily Gobble has the best circulation of any paper in the State, and is a bully advertising medium; the place to get fine job-work done is at the Daily Gobble office; Chivers' scours and dyes; Emporium for fannel shirts; Dr. Le Homburg, from Paris, now in the city, treats private diseases; and select sayings of Josh Billings.

Another host has gone under. The J. H. Lacey, on her way down, on last Tuesday evening, sank near Charles ton, about half-way between here and St. Joseph. She had broken many of her timbers, by running on Winnebago bar, above here, on the same day, and could not bear up until she reached St. Joseph. She is a total loss. This is the second boat that the Hannibal and St. Joseph Railroad Packet Company have lost, the present season.

The persecuted saint of Ottawa says that his character was fully vindicated against the foul slanders of his enemies, in the East, and proves it by mentioning the fact that he was thought worthy to preach in New York for four years afterwards. That is heavy testimony. If he had also been permitted to preach in Chicago for several years, his character would have been unimpeachable!

There is at present great activity going on in the hog buying trade. We learn that O. Bailey has already bought very largely, at unusually good figures for farmers; and the prospect is that his slaughtering operations will this season greatly exceed those of any former season.

Lieut. F. M. Gilliland, of Paducah, Kentucky, who was confined for 11 months in the Libby Prison, and was there attacked by Dyspepsia in its worst form, and so debilitated that he could not walk one square, states that he has been entirely cured by Cor's DYSPEPSIA CURE. Let the suffering try it.

The steamboat fatality still continues. The War Eagle was snagged and sunk, in the vicinity of Lexington, a few days ago. The Fall and Winter stock of Groceries of Backhalter & Fornbrook, of this place, was on board, but was fully insured.

It is said that General Sterling Price's funeral was the largest ever seen in St. Louis. Easily explained. The Missouri rebels used to swear they would follow Pap Price to hell. They followed him as far on the journey as they could, for the present.

We learn that there is to be another vote for County Seat, in Richardson County, Nebraska, as the law requires a majority of two-thirds over all competitors, for a choice on the first ballot.

Ladies below loud praise upon Barnett's Kallistion as a preparation which imparts a clear, soft and beautiful hue to the skin, without being attended by any injurious effects.

The favor of our correspondent, "Blank," is compelled to stand aside until next week, on account of the Registry lists.

Mr. AGAIN.—Bro. Butler is turning out as scallawag from the Democratic party generally do, who pretend to break off from the party, with some sinister design, and are at once grabbed up by the Republicans, and thrust into responsible offices, over true and tried men of their own. We are glad of it. We hope he will bite them until they fairly howl. His antecedents and his countenance ought to have condemned him with any observing people. We hope their Andy Johnsons and their Ben. Butlers will make the Republicans sick enough of that kind of work—we have no idea that it will teach them caution. Where one of these objects of mistaken magnanimity fulfills all expectations, fifty turn out bogus as soon as they are in a position to do the most mischief.

Mrs. LINCOLN.—It appears there was a good deal of truth, as well as gossip, in the stories about Mrs. Lincoln. Her offering her wardrobe for sale in New York, has brought out many disgraceful revelations, which are a shame on account of the man whose name she bears, and has provoked criticism from every quarter, greatly to her disadvantage. She has earned a reputation which will cling to her through life, and make her deeply mourn the foolish and improper course of conduct she has pursued from the time of her husband's inauguration down to the present date.

"PEEBLES VS. PLAINSTONES."—The road case between Keith and Alford, over in Brown, which has been exciting that neighborhood for the past year and a half, and which promised to become as interminable as the celebrated case of "Peebles vs. Plainstones," was decided at the District Court at Hiawatha, this week, in favor of Keith. Alford has to open the road.

C. C. Whiting, of the State Central Committee, is writing letters explaining why he did not announce a canvass of the State for Gen. Blount. Robert Bonner, of the New York Ledger, is also writing articles giving his reasons for not exhibiting a celebrated stallion owned by him.

The name of John S. Miller, of Marion Township, is announced as a candidate for County Commissioner.—We are not acquainted with Mr. Miller, but he comes recommended by some of the most substantial men of the County, who say he is the choice of a large number of voters.

An inquirer wishes to know in what service Sam. Carey earned the title of General. He earned it during long years of peace; but when war came, and the country needed men to fight her battles, he gracefully yielded all claim to the title.

George Francis Train announces that he will commence the canvass of Kansas in favor of woman suffrage, at Leavenworth, on the 21st inst. Well, what is to be, will be. We suppose the thing may then be regarded as "gone up."

An article going the rounds of the papers, is headed, "What has Johnson gained?" The following text of Scripture answers the question: "What profiteth it a man, if he gain the whole world and lose his own soul?"

A GAME FIRM.—There is a Life Insurance Agency in Leavenworth, under the style of Partridge & Hens. (Hens is the German for rabbit.) There is game in abundance, in that firm.

I. S. Kalloch asks us to announce that he will speak in this place, this (Thursday) evening; but as we cannot possibly get the paper out before dark, it would be of no service to him.

Assessor.—The first announcement for County Assessor is made this week. The candidate is Will H. Curtis, of Doniphan. If he has a clear field, he is sure to win.

A Kansas exchange, noticing a recent speech by Kalloch, says he "uttered a glowing peroration on women." That is too true to be called a mistake of the types.

We understand there was a case of Cholera in town, the first of the week. "Nasty" was the boy reached for. He is about.

The Combination renders Burnett's Floral a fine Perfume.

IOWA POINT, Oct. 15, 1867.
The Registering Office desires to express his thanks to Mr. Sol. Miller, of the Chief; Mr. E. M. Hubbard, of Highland; and Mr. William Hedrick, of Wolf River, for the completeness of the list of voters in the Township. He would also state that if any names have been omitted, it will give him great pleasure to have them enrolled by the final Board for Registration, on Monday next, if such persons will make it known by Saturday next.

Faithfully Warned.
The Northwestern has given warning that the German Infidels of this country mean to disrupt the dominant party unless it will consent to repudiate the Sabbath and canonize bad whisky. We are told that unless the people will yield to the removal of all Sabbath-laws and all restraints on the manufacture and sale of liquor, they will organize a new party and appeal to the anti-puritan masses of the country.

Now we say again, say it calmly and deliberately, that the Church will not abandon its high ground; it will not give up its Holy Sabbath, it will not consent to the endorsement of drunkenness. We say dispassionately, quietly, yet echoing the faith and purpose of the Evangelical Church, that God is to be feared and obeyed rather than man.

It is said that this stand will cause a third party. We answer that the responsibility will be on the men who compel its formation—we propose no such thing. We propose to stand by the great principles of morality and religion which Washington declared the firmest props of the nation. We love this nation. The Churches saved it, under God, during the rebellion. They will not let it be ruined now.

If restless foreigners mean, at any cost, to introduce European rottenness, we tell them it will be sternly resisted. If politicians who have no conscience seek to afflict us by the menace of a third party, there shall be no infringement of rights, but we will not yield our Sabbath nor consent to the apotheosis of whisky.—Northwestern Christian Advocate.

Announcements.

Fee, Three Dollars, in Advance.

Representative.
H. N. SEAYER is a candidate to represent the First District in the next State Legislature. At the solicitation of many friends, ISRAEL MAY, of Iowa Point, has consented to be a candidate for Representative in the next Legislature, from the 1st Representative District.

County Commissioner.
We are authorized to announce C. C. CAMP as a candidate for County Commissioner, for the District comprising Centre and Wayne Townships.

JOHN S. MILLER, of Marion Township, will be supported by many voters, at the coming election, as a suitable person for County Commissioner.

Realizing the fact that the position of County Commissioner is the most important in the County, and should be filled by men of the best business qualifications, we have determined to support JOHN H. UTT for that office, and ask others to do the same.

MANY VOTERS.
EDITOR CHIEF:—You will please announce me as a candidate for County Commissioner, for the Third District. All I can promise is fidelity to the people, having strict regard to economy and justice in all business that shall come before the County Board. As I have served two terms as Commissioner, the voters know whether I am capable to serve them or not.

DAVID LEE.
SHERIFF.
WAYNE TOWNSHIP, Oct. 14, 1867.
EDITOR WHITE CLOUD CHIEF:—Please announce my name as an independent candidate for the office of Sheriff of Doniphan County, at the ensuing November election.

JOHN LANDIS.
JOSEPH F. HAMPSON is a candidate for the office of Sheriff, at the ensuing November election, and would respectfully solicit the support of the voters of Doniphan County.

B. S. CAMPBELL, of Highland, submits his name to the voters of Doniphan County, as a candidate for the office of Sheriff, and will be thankful for their support. As to qualifications, etc., he refers the public to those who know him.

CAPTAIN SAMUEL FLICKINGER, of Wayne Township, is a candidate for Sheriff and if elected, will endeavor to serve the people faithfully, and to the best of his ability.

County Treasurer.
CHARLES RAPPLEYE is a candidate for the office of County Treasurer, at the November election, and respectfully solicits the support of the voters of Doniphan County.

County Clerk.
GEORGE W. LAZELLE is a candidate for the office of County Clerk of Doniphan County, at the ensuing election.

JOHN T. KIRWAN, of Wolf River Township, will be a candidate, at the November election, for the office of County Clerk.

The Truth About Dyspepsia.

Whoever says that Dyspepsia is incurable, tells us—that is to say, an egregious mistake. More than 90,000,000 of the human race have been cured by HEMMOLD'S STOMACH BITTERS, while the number that have been prevented from coming to a head, by the same means, is incalculable. It is the season of the year, when the appetite is sometimes too vigorous for the comfort and safety of the stomach, indigestion is most prevalent and most distressing. Is the appetite to be balked, to accommodate the digestive organs? Not so; for then the frame would lack its due proportion of nutriment. The thing to be done is to strengthen the stomach, tone the liver, and put the bowels in perfect order. Nothing will do this so effectually, so rapidly, so quietly, so pleasantly, as HEMMOLD'S BITTERS. This potent preparation trims and balances the system, and clothes it, as it were, with defensive armor. Chronic dyspepsia, liver complaint, and fever and ague, are never known to attack those who are wise enough to invoke the aid of this great preventive.
